Skin: Severe irritation and burns to the skin. Damage may be delayed.

### **PREVENTIVE MEASURES**

Steps to be taken upon release or spillage (including neutralizing):

With large spills, dyke for later disposal. Neutralize with diluted acid - like hydrochloric or sulfuric acid. Minor spills can be neutralized and flushed with plenty of water.

Waste disposal method:

Waste product should not be discharged into sewers or streams. It should be first neutralized with dilute acid and then discharged according to federal, local and provincial regulations.

Handling and Storage Requirements:

Store in cool area above freezing point of product. When diluting always add product slowly to water to prevent boiling and splattering.

Ventilation Requirements (Local or General):

Use with adequate ventilation.

Respiratory Protection:

Not normally necessary.

Eye Protection:

Chemical Workers goggles.

Other Protection:

Rubber, vinyl or neoprene gloves and coveralls should be worn to prevent contact with skin and clothing.
